Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

1. Applicant is notified that the amendments put forth in Paper 29, 2/28/03, have been entered in full.
2. Applicant's amendments have necessitated the issuance of a new restriction requirement. Thus, Applicant's remarks will be held in abeyance pending Applicant's response to the new restriction requirement, as set forth below.
3. Claims 37-40, 76-98, 129-131, 140-150, 154 and 155 are generic to a plurality of disclosed patentably distinct species comprising isolated polynucleotides encoding specific fragments of SEQ ID NO: 2. Each fragment is a structurally and functionally distinct molecule, each capable of being used in ways that do not require the use of any of the others, e.g. each fragment is capable of producing a unique repertoire of structurally and functionally distinct antibodies. Further, although a search of any one of the fragments may overlap that of another, the search of one could not be relied upon, solely, to provide art that is anticipatory or would render obvious the invention of any other, and to search all fragments in a single Application would be burdensome. Applicant is required to elect an isolated polynucleotide encoding single disclosed fragment, even though the requirement may be traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1646

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Brannock, Ph.D., whose telephone number is (703) 306-5876. The examiner can normally be reached on Mondays through Thursdays from 8:00 a.m. to 5:30 p.m. The examiner can also normally be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler, Ph.D., can be reached at (703) 308-6564.
